AMERICAN TELEGRAMS.

BERLIN, February 18th.

Prince Bismarck has obtained from Count Shouvaloff, the Russian Embassador here, a definite declaration of the Czar's demands with reference to Bulgaria. No secret is made of the exact character of the proposals, nor of the official opinion that they will be summarily rejected. The Czar asks a substantial recognition of the rights of Russia to control Bulgaria and Roumania. Prince Ferdinand and the Sobranje are to be wiped out, and a Russian Commissioner, with a Turkish colleague, is to reorganize the Government and army, and control the election for a new Sobranje. Russia further claims the right to occupy the principality until the Czar deems it proper to withdraw his troops. The impossible nature of these demands aggravates the situation. It is reported that Prince Bisinarck has advised Count Shouvaloff to urge the Russian Government to refrain from officially presenting them to Austria, on the ground that they would certainly meet with peremptory rejection without discussion.

many now approach a condition of readiness. As an adjunct to the treaty of alliance a plan League. has been agreed upon for the co-operation of the allied forces. When the campaign opens there will be three armies in the field, one consisting of the First or East Prussian Corps, the Fourth or West Prussian Corps, the Fifth or Posin Corps, and the Sixth or Silesian Corps, and will be under the command of Prince William. The second army, led by the King of Saxony, wil consist of the Saxon contingent and the Austian troops stationed in Galicia and Bohemia. Ahe third army, under Archduke Albrecht of Austria, will be composed of the bulk of the Hungarian and Austrian troops, and will form the fouthern corps. If France enters the field this plan will

be modified, but the German and Italian armies mobilized, are relied on to dispose of the French The acceleration of Italian naval preparations s due to urgent representation's from Berlin, and details supplied to the War Office confirms the reports of intense activity in Italian arsenals The German officers who were sent to assist it the preparations, report favorably on the concentration of the Italian naval forces at three centers, Messina, Taranto and Maddalena. On th Island of Maddalena, which is off the north-east coast of Sardinia, a new arsenal has been established. The heaviest Krupp guns are being mounted at these points. Extensive fort works are constructed at Maddalena which is designed to be the rendezvous of the fleet operating against the coast of France.

LONDON, February 18th. Much uneasiness prevails in political circles Colonel Ponsonby, the Queen's private secretary, has recently paid several visits to Lord Salisbury and W. H. Smith, the Government leader in the House of Commons. Such visits are unusual except when a crisis is imminent. After the Cabinet Council to-day, Balfour, the Chief Secretary for Ireland, walked to the Irish Office. He was evidently greatly excited. Although the weather was bitterly cold he was hatless and walked with his hands clasped to his head. He was followed by detectives.

DUBLIN, February 21st. Parnell has refused to accept Gill's resignation of his seat in the House of Commons, for Limerick City, but will allow him a special conge to

The Emperor last evening attended the performance of "Don Juan," which was given by royal command. The proceeds are to be devoted to |the Mozart monument fund, now being raised at Vienna,

CLYDE, February 21st. Ship-owners held a meeting to-day to discuss the business outlook. It was shown that a gloomy view of ship-building prospects was generally held. Allan predicted a total collapse before the year was ended.

LONDON, February 21st. A dispatch from Vienna says: Count Kalnoky, Minister of Foreign Affairs, has accepted Russia's overtures for the settlement of the Bulgarian question. He trusts that Italy and England will follow suit.

In the Commons this evening, Bradlaugh made a personal explanation regarding the correspondence in which Lord Salisbury appeared to charge him with corruption and perjury. He said Salisbury's solicitor denied his responsibility, that the Government refused to grant a committee of inquiry, and he hoped the House would allow no further responsibility to rest upon-

Cameron (Radical), in the debate on the address, moved the adoption of the amendment consuring the absence from the Queen's speech of all reference to the distress prevailing in the Highlands of Scotland.

The Government Speaker contended that the Crofter Districts were overpopulated, and that relief ought to be sought in immigration.

Cameron's amendment was rejected. The Belgian Government has secured for about 100,000 floring the collection of modern pictures formed by the late M. Van Pract, the statesman and historian. It comprises some of the best works of Millet, Troyon, Rousseau, K. Corst and Delacroix. The collection will soon be put in the Brussels Mureum, in a special room. A Paris dealer offered 160,000 floring for the lot, but the heirs were patriotic enough to sell to their own Government at a less price.

ST. PETERSBURG, February 21st. Count Tolstoi, Minister of the Interior, has submitted to the Ministry; a bill to prohibit peasant proprietors from selling the holdings granted to the latter, when serfdom was abolished.

DUBLIN, February 21st. The Land Commission has reduced the rents in Donegal, 25 per cent. on an average. Several landlords in the Glenties District in Donegal have reduced rents 40 per cent., and the conces-

LONDON, February, 21st. A dispatch from Berlin says Prince Bismarck submitted the Regency Bill to the Emperor to-day. The texte of the measure has not been made public.

Wallace Ross won the road-scullers' cycling The CONSOLATION CUP, value, Tis. 100; for match yesterday. The scores were: Ross 330, miles, East 325, Corcoran 324, Godwin 286 The Association of the Chambers of Com-

merce of the United Kingdom unanimously passed a resolution advocating an arbitration treaty with the United States for the settlement of all difficulties that may arise between that country and England, A resolution favoring fair trade was rejected by a vast majority.

February 22nd. The Commons to-day negatived an amendment to the address, proposing the creation of a Tribunal on Judicial rents, in Scotland.

The motion to vote the address was then approved. After which, on a motion that the report on the address be adopted, Labouchere moved to insert in the report a request of the House to be informed whether any correspondence with the Italian Government had been had, as to intervention, in the event of a war between France and Italy. He severely criticised Salis-

bury's policy.

Ferguson, Under Foreign Secretary, said no | CHINA COAST METEOROLOGICAL engagement had been entered into either with Italy or any other Power, that was not known to

Gladstone said he-heard with extreme satisfaction the assurance that the Government had conducted a policy of harmony with France. He was content with the declaration just obtained. He earnestly hoped that, whatever happened in Europe, the unity of sentiment of all parties on the foreign policy would be obtained, thus doubling the moral force of England and immensely increasing her power when constrained to interfere.

W. H. Smith congratulated the House on the tone of Gladstone, and said there was not the slightest ground for thinking anything had been done to trench upon the existing harmony with

> LIABILITY OF DIRECTORS, MANAGERS AND AUDITORS OF PUBLIC COMPANIES.

The following cutting from the London Standard of 7th February last, may be of interest to the Directors, Managers and Auditors of local companies :-

"It is well-settled law that Directors are personally liable to refund dividends paid to shareholders where these dividends are not paid out of profits. By the decision in the Leeds Estate Building and Investment Company, Limited, (reported in the Law Times of Jan. 21), this liability has been extended to the manager of the Company who prepared the balance-sheet, and to the auditor who certified it. The Statute of Limitations will apply in an action against the auditor, but not against the Directors or manager. The a ditor in this case has been found personally liable to refund the dividends paid to the shareholders for two separate years, as to which the Statute of Limitations did not apply. His fe was at first five guineas, subsequently increased to seven guineas, and ultimately to twelve guineas. The certificates he gave were in the following form's --- Levilify that I have examined the above accounts, and find them to be a true copy of those shown in the books of the Company, This decision will, no doubt, make managers or accountants of Companies and their auditors more careful in future. Some auditors have been of opinion that if they only gave a certificate similar to the above they escaped liability. This decision will dispel that iden. It has caused considerable stir among professional auditors, more especially as it is stated other actions, are pending. In one of these it is alleged that leases were entered in the balance-sheet at cost, but that these leases, if properly valued, were. not worth the cost; that a sufficient allowance had not been made for bad and doubtful debts ; that goods manufactured by the Company, and consigned to agents for sale, had been valued at the price the agents would pay for them when sold, instead of at the cost of manufacture, that the price paid by the Company for trade marks, goodwill, and patents, was excessive, and that a sufficient depreciation on this price had not been debited to profit and loss. It these allegations can be proved, it would appear that not only the Directors, but also the manager and the auditors, will have to refund the dividends paid,"

(FROM OUR OWN CORRESPONDENT.) 23rd March, 1888.

The last mail "overland" will probably leave to day for Tientsin, whence it may be despatched by steamer to the south. There will be no chance to write afterwards till possibly the beginning of April, for even if the ice breaks up about the usual time (St. Patrick's day) there may not be any steamer ready for cargo before the 25th instant, or later. It will be an advan-Tientsin so that we may avail ourselves of the at Noon. steamer opportunities thence to Shanghai, Europe etc. The last courier inwards will be next Saturday,-toth instant, and we hope to get late news, as perhaps Tientsin will then be open.

According to Chinese calculation spring commenced on 22nd day 12th month (3rd February.) For two or three days afterwards the weather was comparatively mild, but after that very short spell of spring the coldest- and most unpleasant three weeks were experienced of the whole winter, the thermometer going down to B degrees below zero, Fahr., that is, 40 degrees of frost, with strong winds and heavy falls of snow. The ice is said to be at least three feet thick in the river. but a few days of thaw, such as usually occur in March, will soon put an end to the traffic by carts. In the early part of the cold season much snow is said to have fallen in Mongolia, and myriads of sand grouse were driven to these plains which remained open to them till lately Sportsmen have made big bags, and natives have snated large quantities - so that the delicate bird has been easily obtained-perhaps not quite so cheaply though, as some years ago, when grouse were as cheap as eggs, and could be

bought at 100 per Mexican. The distress in the interior has not been so great as the last two winters, the crops having been on a splendid scale last harvest. Still we hear of bands of robbers that have to becontinually fought by the "braves" who occasionally get the worst of it. Several tigers have been brought down and are to be seen in the native town. One of them is a very handsome beast with a splendid head. The value of a tiger we learn is from Tls. 150 a Tls. 250, the bones and other parts of the animal being prized as medicine. Tiger skins are much more Oplum, are being landed at their risk, into the

THE following is the translation of a numerously signed address which the inhabitants of Haiphong have sent to M. Constans, previous to his departure for France :-

Halphong, March soth, 1888. To Monsieur Constant, Deputy, and Governor-General of French At a time when you are about to return to France, to place before the Government and the Chambers the programme of administration which you have acquainted us with, and which is so conformable to the wishes of the people of Inde-China, the colonists of Annam and Tonquin doesn it their duty to again assure y u of the full confidence they have placed in you. They are convinced that within a short period of time, and by your efforts. French Indo China, having concluded her period of organisation will not require anymore credits from the metropolis; that she would have already attained this result but for the incessant changes which have taken place both in our public men and in our politics, which have retarded the progress of Annam and Tonquin. You have informed the colonial residents of your determination to reside among them; they rely on your promise and feel confident that the Government of the Republic will maintain you a long time at their head, to complete the patriotic work to which you have devoted yourself. Hest assured, Monsieur le Gouverneur-Général, that you will always find from all the colonists the most generous support.

THE GARRISON SHOOTING CLUB gave their annual quadrille on Friday night last at the Commissariat Buildings, Queen's Road, the use of which, had been kindly granted by His Excellency the Commander-in-Chief. A great deal of care had been taken in transforming the extensive gallery into a ball room, and although the condition of the floor left something to be desired, there was really very little room for fault finding. The decorations were of the usual florid style customary in the colony, and set off the rooms to the best, advantage. There was a very large attendance of guests, over two hundred being present, including a large proportion of ladies. Major-General Cameron, accompanied by the Misses Cameron and attended by his aide-de-camp and several officers of the Garrison, arrived early in the evening, and appeared to enter heartily into the proceedings. The civilian element was falso strongly represented. Dancing commenced about nine-o'clock to music supplied by contingent of the Band of the 58th Regiment and was kept up with undiminished vigour until an early hour in the morning. The arrangements were as complete as they possibly could have been, the Club committee doing everything in their power to ensure the comfort of their guests, and in this important respecthey fully succeeded. Everything passed of most harmoniously, and the Garrison Shooting Club can congratulate itself on having scored a bull's eye socially, and thereby brought itsel more prominently before the Hongkong public than has yet been the case. Special thanks are due to the Stewards, consisting of Garrison Sergt.-Major Meredith, Mr. Warne, and Staff Sergts. Williams, Larkin, Mills, Adams, Lilly Antrobus and Brake, whose exertions ensured the success of a most enjoyable entertainment.

THE NORTH-CHINA INSURANCE COMPANY, LIMITED.

An extraordinary general meeting of the shareholders in the North-China Insurance Company, Limited, was held on the 19th March at the Head Offices in the Hankow Road, Shanghai. Mr. E. H.-Lavers, the Chairman of the Board of Directors, presided, and there were present Messrs. F. H. Ball, W. Brand, A. C. Westall, H. R. Hearn, J. A. Hawes, Directors; J. F. Rodewald, J. Welch, A. Anderson, H. J. Limby, H. Munster Schultz, W. D. Little, A. S. F. Clifton, T.O. S. Jenkins, C. G. Warburg, H. I. Price, G. T. Veitch, J. R. Michael, R. D.

840 votes, The required number of shareholders beingpresent, the Chairman called upon the secretary to read the notice calling the meeting, which was

The Chairman said—You are aware that this

s an extraordinary meeting called for the purpose of passing the resolutions which have been duly circulated and advertised. The first resolution is purely a formal one, necessary to bring the Articles of Association into conformity with the Joint Stock Companies Act. There appears to have been some slight error by our legal advisers in fixing the number of days at 30 instead of 25. The second resolution is of a more important nature, dealing as it does with the mode of listributing profits. This subject has engaged the ittention of the Directors for some time past, and they now come to, the conclusion that the existing rules as embodied in sub-sections; two tofive, of clause 108 of the Articles of Association we too hard and fast, and although these sections may indicate what might be a reasonable declaration of dividends during prosperous years, it appears desirable that the distribution of profits should be, in future, left more to the discretion of the shareholders in order that the amounts available may be dealt with according to the exigencies of the times. The proposed alterations will enable the Company to do voluntarily everything that it is now compelled to do under the Articles of Association as they stand, without however, binding the shareholders down to any particular diposal of profits except, of course, the to per cent share dividend, and in the present uncertain state of the insurance business it must be evident that the regulations that were framed when competition was less keen, should be relaxed. While the directors are unxious to -maintain the mutual principle by payment of bonuses upon a scale commensurate with the results of our business, it, is felt that something should also be done lowards extending the reserve fund, which has already taken definite shape, and it is hoped the resolutions about to be proposed will obtain unanimous approval, but before putting them to the meeting it would be interesting to hear what shareholders might have to say on the subject.

No shareholder rose to speak, and the Chair-

man proposed-"That Clause 58 of the Articles of Association be altered by striking out the word 'thirty' at the end of the third line and substituting therefor the words "twenty-five." :

Mr. F. H. Bell seconded. The motion was carried:

The Chairman proposed— "That Sub-sections 2, 3, 4, and 5 of Clause 108 of the Articles of Association, and their marginal notes be cancelled, and that the following sub-section and marginal notes be substituted therefor:

"(2) In the second place, if there Reserva Fund: shall be any surplus profits after payment of to per cent as aforesaid, the same shall be applied to the payment of a Bonus or Bonuses to each Shareholder who has contributed or influenced business to the Company, and/of to the establishment and maintenance of a Fund to be called the Reserve Fund, and/or to any other purposes, as may be determined by the Company in General Meeting." Mr. Hearn seconded, and the motion was

carried. This concluded the business, and the Chairman thanked the shareholders for their attendance.

NOTES FROM CHINESE PAPERS.

The Shin-pao says that between. Nagasaki and Kagoshima kens in Japan, there is a mountain called Kirishima Yama, which has from very ancient times been said to be capable of volcanic eruptions. Some hundreds of years ago a vast crater opened towards the South-west' from which flames bave risen ever since. During the heavy rains of the XIX year of Meiji, there was a sudden outflow of sulphur, the smoke of which obscured the aky and killed all the vegetation in the neighbourhood. On the 5th day of this menth subterraneous noises were heard like thunder, flames rose to a great height and the sky was obscured by vast clouds of smoke, the ground shook for miles around, and stones and cinders rained upon the roofs of the cottages in the villages near, whose people are

o other vinages. We learn from the same paper that the Prefect of Lin-an, with the Chi-hiens of Shih-ping and Kien-shul under him, have jointly reported to the Governor of Yunnan as follows

in great alarm fearing some catastrophe may

happen, and are thinking of emigrating en midse

From the and day of the 12th month of last Chinese year, till the 3rd day of this year, there were over ten shacks of earthquake accompanied with a noise like thunder; the Yamens in the city of Shih-ping and Kien-shul were either knocked downor split right down, and the temples likewise; in Shih-ping 8 or o-tenths of the houses in the south falling down, and half of those in the east; in the N.W. about a thousand being cracked or bont out of the perpendicular, 200 people, men and women, old and young, being crushed to hinng over 800 crushed to death, about 700 or over 400 injured. At Si-hiang, over 200 dead. killed same number injured. The above four suburbs there were over 4,000 people either killed or wounded eight or nine-tenths of the houses fallen down and the rest cracked and leaning over. At Kien-shui, in the city, 7 killed, several. tens wounded; in the N. W. suburb 300 to 400 houses overturned, people killed 349, wounded
